RAR Password Recovery Software.NFL draft: Talent scouting big on depth, particularly at offensive line Syracuse defensive end Terrence Fede (3) runs off the field with teammates after an interception during the first half of an NCAA college football game against Clemson in Clemson, S.C., Saturday, Sept. 8, 2019. (AP Photo/Rainier Ehrhardt) College Football The strength of the NFL draft is depth, particularly at the offensive line. With just four picks in the first three rounds, the Cleveland Browns could use at least one of them on the interior offensive line. In the first two rounds, the Seattle Seahawks landed offensive linemen on their first four picks, while the Oakland Raiders, Chicago Bears and New York Giants also loaded up on linemen in the first round. And in the first three rounds, 13 quarterbacks were selected, which is a number not seen since 2010. The Browns have eight picks in the first three rounds and could draft one of them in the first round and another in the second round. The Browns could benefit from taking a tackle in the first round or from trading back in the first three rounds. ■ CBS Sports expert Rob Rang rated the five-man class of defensive linemen as the draft's most talented in a recent column. Rang put it in three parts: first, where the draft's top 10 prospects ranked overall (Rang's ranking is from 1 to 5, with the highest score being the best), then the top 15 and finally the remaining 24. This year's draft class had three tackles ranking among the top five prospects overall: Ohio State's Chase Young (No. 5), LSU's Devin White (No. 6) and Alabama's Quinnen Williams (No. 7).01.
