CBT is a Cellular Blackberry Device with 4GB storage and supports java based applications as well. It is sold at Rs. 28,000/- for 1 year service plan. It is also bundled with voice calls in India. Both the devices support mobile internet, SMS, Email, Multimedia (Music, Pictures, etc.) Applications and games. Apps are pre-installed by the Blackberry® Computer Telephony Integration (CTI) solution. The device is announced in April 2017 and is in its initial phase of production. It launched on 12 July 2018 and up to now it is available in India and few other countries like Saudi Arabia, Russia, Singapore, and Malaysia. At the time of its launch, it has been received positively by a large number of customers and it is reviewed positively by the press. Mobile phones are expected to be a better communication device while traveling. But the major drawback is the lack of availability of the Blackberry Playbook and the growing threat of Blackberry shutting down the production of Playbook, preventing customers from upgrading from Blackberry OS 6 to Android OS 6 and the new Blackberry OS 7. Blackberry Ltd. in collaboration with Tata Communications launched the Smartphone with Blackberry OS 7.0 and Blackberry Playbook on 9 April 2018. Soon after the announcement of Blackberry OS 7, it was seen that certain Blackberry customers were complaining that they were unable to download this new OS. It was reported in April, 2018, that the company was aiming to sell Blackberry OS 7 to existing Blackberry customers through an upgrade program. In 2018, The company announced that Playbook OS 7 would become available to existing Playbook users for free as part of a new upgrade program. Human phosphoserine aminotransferase, the first enzyme of the one-carbon pathway for the synthesis of thymidine, was expressed in Escherichia coli by the use of a plasmid with an isopropyl-thiogalactoside-inducible expression system. The recombinant protein was purified, kinetic parameters were determined, and the purity and integrity of the enzyme were assessed by SDS- 3ef4e8ef8d
