Treats! Well, here we are just a few days after Christmas and the gal who baked those
delicious cookies, dipped them into chocolate and sprinkled them with confectioners
sugar, has us pretty well stashed away in the office, in need of delicious treats. While I
am sure you are all terribly disappointed that I didn't get the eggnog recipe out of the
oven for you all to enjoy, I am happy to say that the littlest sister, has enough willpower
not to drink a lot of it, so we are not all in need of ice cream. However, this is a prime
opportunity to share some of the treats that were baked up, that were a fun distraction
from the marathon that we all got through last week. The one that I wanted to share the
most was these delicious cookies. I made them and they were awesome. When I was
sharing the cookie recipe with my friends a few months ago, one of them said that she
wasn't a big fan of nut-and-fruit roll-ups, and suggested that I make this recipe. Well, I
did and we all loved them. They are packed with rolled-up goodness. The recipe is from
the Cooking Light magazine and it is a simple enough recipe. Make it for a get-together
or even just for your family and the recipe will surely please

Mar 26, 2019 Van Helsing is the result of the work of an unholy alliance of a Hollywood uberproducer, a German game designer and an Estonian hacker, thus Van Helsing is a film that is both visually stunning and oddly flat out funny. Van Helsing, the mutant hunting vampire detective, who returns to his hometown in search of his missing wife (Kate Beckinsale), finds himself at odds with the townspeople who believe him to be a monster. To make matters worse, they have already been attacked by a family of bloodthirsty vampires. A little romance will not help, but it might be a little more than what Van Helsing was expecting.
