It gives me a message saying that the wrong game was installed and i need to unistall, but it's not listed as a game in my steam games menu. I tried unistalling and reinstalling it but it didn't work. Can someone help me get it back to how it was? Jun 12, 2018 I have updated to Helldorado 4.0 and I can not even get the game to start on my Fire TV. I have tried installing and updating the drivers and it says that the game is incompatible with my Fire TV but that is not true as I have other games that also do not work. I have even tried downloading the game for the Fire TV but when I load it, it says that I have to register it on the website before it will run on my Fire TV. I have done all of this before and it worked then but I have also tried downloading it off Amazon and I have the same problem. Can anyone help me get it to work on my Fire TV?
