References Category: Computer security software they are not when there is evidence to the contrary. A lot of people come to the site looking for a specific product and are not offered a meaningful review. However, when you are in the store and think a specific product does not meet your expectations, it is usually a good idea to reach out to us to ask for a review. Pegfilgrastim and G-CSF in neutropenic patients with breast cancer. Neutropenia is an important toxicity associated with cytotoxic chemotherapy in the treatment of breast cancer. G-CSF promotes and maintains granulocyte and macrophage recovery in those patients who develop chemotherapy-induced neutropenia. A randomized, double-blind, placebo-controlled trial was performed to determine the safety and efficacy of pegfilgrastim (Neulasta) versus G-CSF (lenograstim) for reducing the incidence of febrile neutropenia (FN) in patients with breast cancer who received cyclophosphamide-based chemotherapy. A total of 521 evaluable patients were randomized to receive placebo (129 patients), pegfilgrastim (50 microg/d; 166 patients) or lenograstim (10 microg/d; 135 patients) starting on day 1 of chemotherapy. The primary efficacy endpoint was the incidence of FN, defined as any temperature  $\geq 38$  degrees C and/or an ANC A team of engineers in California has just invented a 'Do-It-Yourself' (DIY) heart monitor, which is basically an improved version of the one 2d92ce491b
