WOW! this tool has so many features. It can really help you to be able to fix your problems more easily. Cons Only works with Windows 7 Summary I must say that this was one of the tools I used. Although it didn't work for me on my Acer One, I must say that it did work on my Samsung 2 and even my Archos 23. It's something that needs to be checked out. Reviewed By: David C on 07/19/2015 Rating: 4 of 4 Stars! Summary: I use this software to clean up and secure my computer. It comes in really handy when having to transfer files from one computer to another. I don't have to worry about viruses or spyware or even just not having the right drivers for my hardware. This software does that for me. Reviewed By: Peter C on 07/19/2015 Rating: 5 of 5 Stars! Summary: Awesome tool. Helps so many things it's hard to describe them all. It is pretty easy to use and actually makes many of the problems I have encountered with my computer go away. In addition to that it is in my opinion cheap considering the amount of features it offers. I highly recommend it to anyone who needs to make sure everything is running right on their computer. Reviewed By: Shoshana H on 07/19/2015 Rating: 5 of 5 Stars! Summary: You probably hear about this software all over the internet, but I was thinking about it for a long time and thought to myself: "What can I do for my computer if I have no money and I can't install the best software?". Thanks to Asmsoft, I have the solution! Asmsoft has been a lifesaver for my computer. I don't have time for researching which tool is the best for me because I am just an average user and this software does everything for me. It's fast, easy to use and has all the tools I need to keep my PC in check. It has a lot of useful tools that you would normally pay hundreds of dollars to have
