### What's New In Soft4Boost Document Converter?

Soft4Boost Document Converter is an easy to use and efficient software utility created to help you turn files from one format to another, supporting a wide range of file types, such as PDF, DOC, TIFF, TXT, RTF, ODT, JPEG and others. Practical and intuitive user interface Subsequent to a brief and fairly uneventful installation, you can launch the program and start converting documents right away, as you do not even need to have Microsoft Office on your system in order to be able to successfully read such files. The main window allows you to load the items you want to work with, even supporting drag and drop operations; on the right-side of the screen, you can choose the target format, with the possibility of configuring the name pattern of the output items. Load the source files, choose the target format and 'Convert Now' Soft4Boost Document Converter lets you add all the files you wish to process, either individually or in batch, opening them in the main screen and enabling you to preview them, including DOC or DOCX, before continuing with the operation. You can browse for your files or drag and drop them onto the main window of the application, then choose one of the available 'Output Formats', for instance PDF, DOC, RTF, HTML, TIFF, DOCX, ODT, TXT, MHT, JPEG, TIFF, GIF or PNG, also depending on the source item. You have the possibility of renaming the generated documents based on a preset, 'Original Name' or 'Text + Counter', the latter allowing you to enter the preferred word or phrase that you want to be followed by a number. Optionally, you can extract the images from your files and send them to a specified folder. Finally, you can choose a destination directory, then press the 'Convert Now' button to start the process, finalizing it within moments and letting you open the containing folder to further work with your documents. A handy tool to quickly turn files from one format to the other To sum it up, Soft4Boost Document Converter is a reliable and fairly useful application that can successfully assist you in obtaining different format files, enabling you to use them regardless of the software you may or may not have on your computer.
