Milan 039;s Fastest File Finder

What's New in the Milan 039;s Fastest File Finder?

Milan's Fastest File Finder is a small file management application whose purpose is to help you perform searches in your computer in order to quickly identify items. It can be installed on all Windows versions out there. Clean and simple design After a fast and basic installation process where you only need to follow the preset steps in order to complete the process, you are welcomed by a colorful interface. The GUI looks straightforward so you can quickly get an idea about how to set up the dedicated parameters. You cannot appeal to a help manual to read more about the setup process. However, you can manage to tweak search tasks on your own. Perform searches in your system Milan's Fastest File Finder gives you the possibility to narrow down the search results by file types. The application lets you choose between several search modes, namely files containing text (you may enter a user-defined text message), multimedia items (e.g. MP3, videos, MPEG, pictures, JPEG photos, GIF items), Office documents (e.g. Word, PowerPoint, Excel, plain text, database documents), as well as creation, modification, or last accessed date. If you are not sure about the file type, you may opt for processing all types of items. Other important configuration settings worth being mentioned enable you to look for files by name, enable the match case mode, and pick the target location. The results are revealed directly in the main window, and you may view details about the filename, file path, and size. Tests have pointed out that Milan's Fastest File Finder carries out search tasks pretty quickly. It does not eat up a lot of CPU and memory resources so the overall performance of the computer is not hampered. Efficient Constant updates Should you encounter any issue with the search results, you can always update the application by itself. Since the application is up-to-date, you will benefit from the new improvements in its functions and usability. Moreover, users can now receive automatic updates to help enhance the performance of Milan's Fastest File Finder even more. Key features Search by text Use a user-defined text search, to look for files containing your text message. The search results are sorted in the order of relevance, and you can sort files in several ways: by name, file type, size, and date. You may also apply the match case mode, and pick the target location. Create a batch file Create a batch file which will process all types of items on your computer. It allows you to pick the search mode, and the target location where you want to search for files. The results are displayed directly in the main window, and you can view details about the filename, file path, and size.
