## Blue Channel

Description of Blue Channel. Features: Features: QUALITY: H.323, SIP, MGCP, ISUP, SCCP, Q.931, QSIG, SCCoP and STUN. 8 different GUI skins with powerful graphic presets. 3 different GUI layouts for the Side bar and/or Main Window. AU Audio Unit plugins that can be linked and used in a multi-channel environment. A high quality implementation of the following plug-ins and instruments for audio enhancement: The Palm lead arpeggiator, the Sampler Fruity, the SF2 instrument, the SF2 Transient Generator, the Multi-FXe, the Electronic FX Generator, the Sine Waves, the AM and FM Tuners, the Wave Designer, the Vocal Phraser, the Ligerio-20 Player, the Ligerio-20 Synthesizer, the Ligerio-20 Controllo, the Screamer and the X-05 Fuzzers. 7 effects that produce distortion with many presets with variable parameters. Complex signal processing effects such as the Reverb, the Decimator and the Echo. 3 Transitions. 36 Effects: Effects: SPLIT: You can split your audio and record on a channel per your choice. OVERDUB: You can record the same audio to different channels (stereo). SPEED: You can increase or decrease the tempo of the audio. LOOP: Repeat the audio that you have recorded. CHORUS: The audio volume will be much louder with the same volume with each channel. VOLUME: Increase or decrease the volume of the audio. NOTCH: Distortion that adds a sound before your voice. EMPHASE: Vignette that lits or fades slowly the audio and then goes back to the usual volume. PHASER: Beeps that define the panning of each channel. TREMOR: Tremolo that allows to modulate the depth of the tremolo effect. ECHO: Echo the sound that you have recorded and that will echo a little time later. FADER: Fades in and out quickly the audio without replicating the original sound. BREAK: Similar to the fade in, the fade out is applied to the main audio channel. REVERB: Reverb that allows you to simulate a room. DECIMATOR: Separates

## What's New In?

• The most serious aim of Blue Channel is to give you the maximum sound quality and detail in all musical genres. • The basic premise is the channel model of the famous Blue Gene Revolution. Blue Channel's channel models are 100 times more detailed than the other Software. • The following channels are available in Blue Channel: • Bass • Bass Lines • Loudness • Mid Range • Mid Range Lines • Middle Fs • Low Range • Low Range Lines • High Fs • Mid Range • Combo • EQ • Full Range • Mid Range • Higher Fs • Lusher's Channels: • Lusher's Channels is a feature designed with the concert hall in mind. • Lusher's Channel has been developed specially for aural enjoyment. • This channel can be used with almost all music genres to make a euphonic sensation. • Lusher's Channel is different from the additional chorus and effects channel. • Lusher's Channel gives a more realistic and richer, more complete, and more harmonious sound. • A special feature of this channel is that it can be used separately from the chorus effect and the other effects channels. • It becomes possible for you to enjoy the sound quality of the middle and low range of the instruments and voices alone. • The units of the high and middle range of the instruments and voices are combined with the units of the low range to construct the sound. • This makes it possible to enjoy the sound quality of the low range of the instruments and voices alone. • This feature is the most important that provides you with the feeling of the instruments and voices. • Lusher's Channel can be used for almost all music genres. • If you use this channel, you can enjoy the music without any chorus or effect. • When you use the chorus and effects, Blue Channel's channel models work. Features: • Blue Channel is designed to give you the most realistic and complete sound quality possible. • Software has very strong compatibility. • Software recognizes the number of your channels without any special configurations. • It is possible to apply and use various effects such as chorus, flanger, phaser, vibrato, delay, filter, EQ, reverb, surround, and so on. • When you use a microphone, Microphone Recording function is useful in recording voices and sounds. • Use Blue Channel and let yourself enjoy the sound quality of
